INTERNATIONAL SCIENTIFIC CONFERENCE “WATER AS A SOURCE OF ENERGY AND ENVIRONMENTAL PROTECTION: A BALANCE TOWARDS A SUSTAINABLE FUTURE”

Organized by: The Academy of Sciences and Arts of Kosova (ASAK)

and

the Academy of Sciences of Albania (ASA)

On 28th and 29th 2026

At the Academy of Sciences and Arts of Kosova

Prishtina, Kosova

International Scientific Conference “**Water as a source of energy and environmental protection: A balance towards a sustainable future**” which is the third consecutive one on water, energy and environment issues, will be held on May 28 and 29 at KASA and will again be co-organized by KASA and AAK.

This conference will highlight the importance of water as a key factor in a country’s sustainable development, particularly in meeting citizens’ daily needs and producing clean energy. Water is also essential for the operation of thermal power plants, and the water-energy nexus encompasses its use in electricity generation at hydroelectric plants, as well as its role in the production of clean hydrogen, a major energy carrier for the future. The conference aims to bring together researchers, energy experts, representatives from public and private institutions, and environmental organizations to examine the opportunities offered by water as a sustainable energy source, with a

focus on increasing renewable energy production capacity, environmental impacts, and the preservation of aquatic ecosystems.

The conference will therefore address, among other things, the following issues:

- Water resources in Kosovo, Albania, and the region, and their potential for use in increasing electricity generation capacity;
- The use of renewable energy for energy storage and its transmission;
- Advanced technologies needed for proper water treatment, pollutant assessment, and removal;
- Integrated water management and sustainable development

Experts are invited to participate in this event and present their work in all fields covered by this conference.

The conference language will be Albanian and/or English.

The deadline for submitting abstracts is April 28, 2026. Abstracts should be sent to the following email address: fetahpodvorica@ashak.org. They must be written in Albanian and/or English.

Presentations will be selected for the conference based on their relevance to the themes addressed, and authors will be informed by May 5, 2026.

Abstracts will be published in the conference proceedings, published by ASHAK in an ISBN-registered book. Selected original papers may be published in the next issue of the journal "Research-Kërkime," published by ASAK.

At the end of the document you can find attached a template of an abstract.
